CNA Pro News

Did you know that your CNA contact for private company management and professional liability can now help you with your Not-for-Profit clients? All Miscellaneous Not-for-Profit business with an effective date of 6/1/10 or later can be written directly with the branch underwriters who work with you on your other CNA Pro business.

This means we can offer you:

- A broader range of products through the branch
- Faster, more direct service
- Potentially higher commissions

Our Miscellaneous Not-for-Profit coverages include Directors and Officers Liability, Employment Practices Liability and Fiduciary Liability.

Appetite – our preferred classes include a wide range of Not-for-Profit organizations including associations, clubs & organizations, foundations, co-ops, and social services, recreation, and arts & cultural organizations.

Coverage – our broad policy offers D&O, EPL, and Fiduciary liability coverage – with broad definitions of claim and loss, minimum premium of \$500, and limits up to \$5 million. We offer 2-year policies, direct billing, and automatic renewal with no renewal application for qualifying risks.

“Quick Application” – just like our Epack EZ product, we offer a “smart PDF” application. It can be used for new business for organizations with 25 or fewer employees and less than \$2.5 million in revenue. You can fill this out on your computer – or email it to your clients with your producer information completed, and have them fill it out. When you (or they) press “submit” the application comes to CNA and we provide you with a quote, usually within the next business day.
