## CNA Pro News

You may have noticed CNA Pro has come out with a number of new and enhanced coverages over the last couple of years. This is part of an ongoing evolution of our suite of products, with the goal of providing our producers better offerings to meet the needs of their clients, whether they are large publicly traded companies or smaller privately held firms.

In addition to these new and enhanced products, we've continued to provide articles, written by outside experts, on new or complex products and trends in management and professional liability.

As an update to the original set of these "Third Party Articles" - Shareholder Derivative Lawsuits, Trends in Professional Liability Insurance Litigation, Trends in EPL Laws and Litigation - we've added the following topics:

- 401(k) Plan Participant Suits - Supreme Court's Decision Changes Employee Rights
- Backdated Stock Options, Derivative Actions and D&O Insurance
- Did you know...about Public Company Fraud
- Employee Dishonesty and the Small Business
- Directors and Officers Insurance for Private Companies
- Fraud Prevention and Management Override of Control

You can find each of the articles, as well as other Risk Management Services, by visiting [www.cnapro.com/html/riskmanagement.html](http://www.cnapro.com/html/riskmanagement.html). Of course you can print out these articles or email them to your clients. And in the next few months we plan to have two additional articles on Ediscovery, and Lessons Learned from Repetitive Fraud.
