CNA Pro Operations & Procedures

Effective March 1, 2005 CNA will assume management of the program for D&O business produced through wholesale brokers. Previously this program was managed through Ambridge, who has recently taken on the MGU role for Fiduciary coverage for Multi-employer Plans.

CNA will underwrite the wholesale D&O business on an open brokerage basis through our regional Corporate Governance offices. This allows us to most effectively service our brokers and clients, and offers opportunities to provide overall D&O expertise on a local basis. Below are our Corporate Governance regional contacts:
